How much is the 40-Ounce Cappuccino?

I saw the following at a coffee shop recently. The shop had prices for the 12 (small), 16 (medium) and 20-ounce (large) cappuccino. They will also make a the 40-ounce cappuccino but they don’t list the price.

1. How much do you think the 40-ounce cappuccino would cost?

2. If you haven't done so already create a table, graph or equation that supports your answer and models the cost of any size cappuccino.
