To see the picture larger and for help answering the following questions, check out the picture of the soda Santa at <http://www.yummymath.com/>. Clicking on the website image will show it to you larger.

1. About how many cans make up this Soda Santa? How do you know?
2. How much is the Soda Santa worth (if you're not sure how much a 12-pack of Coke costs, do a little research or come up with a class estimate)?
3. My favorite soda is Sprite. What is the probability of me randomly selecting a 12-pack of Sprite from this display?
